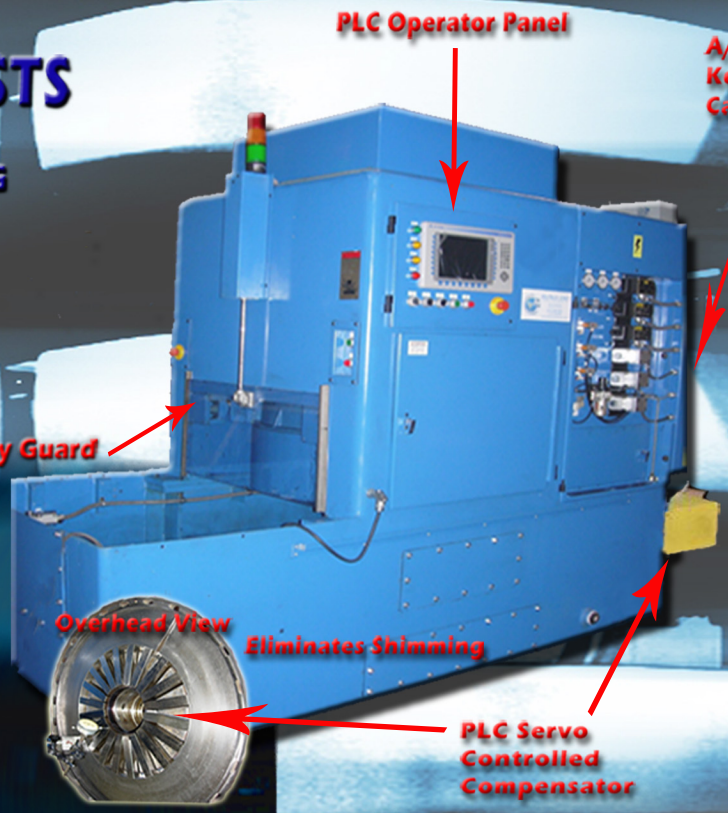
WE ARE QUENCH SPECIALISTS

INTERNATIONALLY RENOWNED EXPERTS IN QUENCHING SYSTEMS AND THEIR APPLICATIONS.

RANGE UP TO STANDARD 36"

ALSO CUSTOM QUENCH PRESS BUILDS UP TO 50"



HOW WE GET THEM!

Our Value-Added Process

- Precision quenching and close tolerance capability and faster controlled process.
- Flexibility in production and stability of of operations by use of PLC recipes any operator can easily pick up where others left off.
- Pre-programmed quench cycle with pulsing.
- Gain Quality, efficiency and reliability with PLC control - even allowing temperature/time in furnace to be read by PLC.
- NO MANUAL ADJUSTMENTS AGAIN or turning valves.
- Ability to control flow and pressure at variable range in each recipe. Stores 200 recipes which are easily backed up and restored.
- Additional capability: remote design, remote control - view process from engineering department to better handle production.
